Not All Chairs Are Created Equal

WHAT IS THE COMFORT LEVEL AFTER 20 MINUTES?

All Summit Series of Church Chairs give you 1½" of foam and lumbar support on the back, for sustained comfort.

WHERE WAS YOUR FOAM THICKNESS MEASURED?

Over 4 inches of foam isn't always 4 inches of foam. We measure only the part of foam you sit on. Others may not.

WHAT'S MY TOTAL INVESTMENT?

All our chairs are fully assembled. Others will give you a great price, but you supply the labour to assemble.

IS OUT OF SIGHT, REALLY OUT OF MIND?

Plywood vs. MDF. All Summit Series of church chairs use plywood versus MDF.

WHAT'S HOLDING YOUR CHAIR TOGETHER?

ComforTek uses only StaFast "Ultimate" T-nuts, which gives a metal to metal connection for superior holding power, not wood screws.

SS 7701-20"

Armless, 20" wide church chair

WHO'S STANDING BEHIND YOUR CHAIRS?

All Summit Series of church chairs come with a lifetime warranty on the frame, 10 years on the foam, and 10 years on the fabric.

Thank You!
